

Vehicle Lift Buying Checklist

1) Before You Leave Home For the Dealership

Your Mobility Device Wheelchair Powerchair Scooter

Manufacturer _____

Model _____ Weight _____

Special Features _____

2) Questions to Ask Your Salesperson

What is the tongue weight (not the towing weight)? _____

A mobility scooter usually weighs between 98 and 200 pounds.

An outside vehicle lift weighs approximately 120 pounds.

If the tongue weight is less than 350 pounds it may not work for you.

3) Check the Vehicle and Lift Compatibility Before You Buy
